

## And....

- A vlog comes with subtitles in English and Dutch. (Subtitles in other languages are possible as well.)

- The vlog can be embedded on your website(s). For 200 euro extra you'll get the vlog by WeTransfer and can use it on your own channels.

- Rates are excluding VAT.  
- Including your web link for a year.

\* Including posts (photos & link video) in Facebook-groups.

I always try to combine a blog/vlog with at least one story in print.
